PLAYING WITH YOUR CHILDREN IS INCREDIBLY IMPORTANT

PLAY

Some simple and fun ideas to kick-start playtime with your children, students, and little friends today

- **Nature Scavenger Hunt:** Explore the outdoors together and search for items like leaves, rocks, or flowers.
- **Storytime Adventure:** Let their imaginations soar with storytelling sessions, or create your own stories together.
- **Indoor Fort Building:** For an afternoon of imaginative play, construct a cozy fort using blankets, pillows, and furniture.
- **Arts and Crafts:** Break out the paints, crayons, and paper for a creative crafting session.
- **Kitchen Experiments:** Whip up some fun in the kitchen with easy and safe cooking or baking activities.
- **Music and Dance Party:** Turn up the tunes and have a dance-off or make homemade instruments for a jam session.
- **Role-Play Scenarios:** Act out favorite stories, pretend to be superheroes, or create a make-believe world together.
- **Outdoor Games:** Play classic games like tag, hide and seek, or hopscotch in the backyard or local park.
- **Science Experiments:** Conduct simple experiments like making slime, discovering solar power, or exploring buoyancy.
- **Puzzles and Board Games:** Challenge their minds with puzzles, board games, or card games suitable for their age group.

Children grow and change so quickly that we often don't know the best way to PLAY! Increasing our understanding of our child's developing brains and bodies is a key step playing in a way that helps our children grow and develop.
